### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1711

Claim 1 contains an extraneous period. Correction is required.

Claim 8 contains the ungrammatical phrase "polymer (b-3) which are selected"

Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The instant specification does not disclose how to produce materials having m and n equal to zero and especially simultaneously equal to zero or materials in which m and n are greater than 1 and therefore production of such materials is not enabled.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term molecular weight is unclear when unqualified as to the type of molecular weight since molecular weights differ depending on the type of distribution intended, e.g. weight or number average molecular weights.

The term "i.e." renders the claims unclear since it cannot be determined if the claims are necessarily limited to the feature referred to by "i.e.".

Claim 7 is unclear since styrene is not a polymer as required by "b-2".
